

**CHILDREN'S AND YOUTH PROGRAM  
FUNDING POLICY  
FY 2007-2008**

**City of Georgetown's funding policy on Youth and Children's Program:**

1. The City Council as part of its regularly scheduled annual budget review process will agree on a funding amount approximating one-eighth of one percent of the annual operation budget, which will be placed in the subsequent year's fiscal budget. This dollar amount will be in a segregated account separate and identifiable from the Social Service Funding.
2. Funds may be allocated to support programs for children and youth who have little or no access to City programs either because of fees or location. This includes both current City programs as well as programs the City is authorized to provide but is not currently doing so.

Approved by Georgetown City Council on May 15, 2007.
