

General Government & Finance Advisory Subcommittee

(GGAF) Meeting Date: November 30, 2009

Item No.

4

AGENDA ITEM COVER SHEET

SUBJECT

Overview and discussion of the City's selection process for certain professional services, including architects and engineers.

ITEM SUMMARY

The City Council requested that staff develop a process for the selection of Architectural/Engineering services that would include the utilization of a combination of staff, Councilmembers Board Memembers, and Georgetown citizens. Separate processes for the two types of services have been developed since both disciplines have unique differences in the number of projects initiated annually and the different types of engineering services required.
